## DETAILED ACTION

### *Specification*

1. The abstract of the disclosure is objected to because:
  - a.) Applicant uses form and legal phraseology "means" in line 9 and 19. b.) Examiner suggest applicant clarify the acronym SCH in line 7.
  - c.) Examiner suggest applicant clarify the acronym CPICH in line 12.
  - d.) In line 19, applicant makes multiple references to  $S_{2n,1}$  and its complex conjugate.

$S_{2n,1}$  is missing from the equation for calculating a calculated value in lines 9-10.

Correction is required. See MPEP § 608.01(b).

2. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of **50 to 150** words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "**means**" and "**said**," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

3. The disclosure is objected to because of the following informalities:
  - a.) On page 3, line 18, examiner suggests applicant delete the word "as".
  - b.) On page 8, examiner suggests applicant rewrite lines 13-17 for clarity.

Art Unit: 2634

c.) Examiner suggests applicant inset a space between line 17 and "Summary of Invention".

d.) On page 1, line 16, examiner suggests applicant rewrite the phrase "**it has been known a ....**" for clarification purposes.

e.) On page 2, line 14, examiner suggests applicant rewrite the phrase "**since one frame is consisted of .....**" for clarification purposes.

Examiner suggests applicant thoroughly review specifications for grammatical errors. Appropriate correction is required.

4. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### ***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1-11 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Claims 1-11 make reference

Art Unit: 2634

to  $S_{2n,1}$  and its complex conjugate.  $S_{2n,1}$  is missing from the equation for calculating a calculated value throughout the specifications.

Appropriate correction is required.

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

8. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are:  $S_{2n,1}$  and its complex conjugate  $S_{2n,1}$  is missing from the equation for calculating a calculated value.

### *Allowable Subject Matter*

9. Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
